INDUSTRIAL ASSIGNMENT- 3 User Stories
STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP01-US01

User Registration

Every kind of user — student, company recruiter, placement officer, faculty coordinator and administrator — needs a simple, secure way to create an account so the system can identify them and grant only the access their role allows.

Scope

Belongs to Epic EP-01 – User Management, Task T01 – Register User: create a new account using valid information (Permission: Public; Precondition: User is not already registered). Implements the requirement that the system shall allow users to register using valid information, and is the entry point for every user of the Student Internship and Placement Management Portal.

User Story:

- As a **Student**, I want to register with my enrollment and academic details, so that I can build a profile and apply for internships and placements.
- As a **Company Recruiter**, I want to register with my company and HR details, so that I can post opportunities and recruit from the college.
- As a **Placement Officer**, I want to register with my staff details, so that I can manage the placement process and approve companies.
- As a **Faculty Coordinator**, I want to register with my department details, so that I can monitor the placement progress of my department.
- As an **Administrator**, I want to set up the first administrator account during installation, so that I can configure the system and manage all user accounts.

Permission Matrix:

Role	Self-Register Account	Edit Own Profile After Registration	Approve / Verify New Registrations	Assign or Change User Roles	View List of Registered Users
Guest	Allowed	Not Applicable	Not Allowed	Not Allowed	Not Allowed
Student	Allowed (own account only)	Allowed	Not Allowed	Not Allowed	Not Allowed
Company Recruiter	Allowed (own account only)	Allowed	Not Allowed	Not Allowed	Not Allowed

Role	Self-Register Account	Edit Own Profile After Registration	Approve / Verify New Registrations	Assign or Change User Roles	View List of Registered Users
Placement Officer	Allowed (own account only)	Allowed	Allowed (company recruiters only)	Not Allowed	Allowed (read-only)
Faculty Coordinator	Allowed (own account only)	Allowed	Not Allowed	Not Allowed	Allowed (own department, read-only)
Administrator	Allowed	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given valid details and a password meeting the security policy, when a Guest registers, then the account is created and confirmed.
  - Given a duplicate e-mail, phone number or enrollment number, an empty mandatory field or an invalid format, when submitted, then the system rejects the registration and flags the exact error.
- **Student:**
  - Given valid details and a valid enrollment number, branch and semester, when a Student registers, then the account is created and linked to a new student record with student access.
  - Given an invalid or missing enrollment number, when submitted, then the system rejects the registration and asks for a valid number.
- **Company Recruiter:**
  - Given valid recruiter, company and designation details, when a Company Recruiter registers, then the account is created with “pending” status for approval.
  - Given the account is not yet approved, when the recruiter attempts to log in, then opportunity posting and applicant features remain inaccessible.
- **Placement Officer:**
  - Given valid employee, designation and cell details, when a Placement Officer registers, then the account is created with “pending” status for Administrator approval.
  - Given the Administrator approves the account, when the officer logs in, then access is limited to placement management functions and excludes Administrator-level rights.

- **Faculty Coordinator:**
  - Given valid employee, department and designation details, when a Faculty Coordinator registers, then the account is created with "pending" status for Administrator approval.
  - Given the account is approved, when the coordinator logs in, then access is read-only and limited to the assigned department.
- **Administrator:**
  - Given the Administrator reviews a pending registration, when they approve or reject it, then the system activates or deactivates the account with the correct access rights and notifies the user.
  - Given the first administrator registers during installation, when submitted, then employee ID and elevated-access credentials are required before activation.
- **System:**
  - Given a registration is submitted, when validation passes, then the password is stored using one-way hashing and never shown in plain text anywhere.
  - Given an account is created, when saved, then it is linked to exactly one defined role from the role list.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Valid registrations succeed; duplicate, incomplete or invalid ones are correctly rejected (valid format, required fields, password strength, no duplicates).
- Passwords are stored using secure hashing and never exposed in plain text anywhere.
- Role-based access isolation is verified — no account accesses features outside its assigned role until it is active.
- Registration flow tested for every role: Student, Company Recruiter, Placement Officer, Faculty Coordinator and Administrator.
- Registration screen reviewed for a simple, user-friendly interface.

Additional Information:

- **Implements:** the system shall allow users to register using valid information.
- **Business rules:** authentication is required before accessing protected features; invalid or incomplete data is never accepted; staff and recruiter accounts remain pending until approved.
- **Non-functional needs:** a simple, user-friendly interface (usability); protection of student and company information (security).
- **Dependency:** precondition for Task T02 – Login (EP-01).

- **Assumption:** users have basic knowledge of using digital applications and a valid e-mail address.
- **Constraint:** internet connectivity is required for real-time registration and verification.
- **Future enhancement:** OTP-based e-mail verification and single sign-on with the college account may be added later.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Full Name, Email Address, Phone Number, Password.
Student	Full Name, College Email, Phone, Enrollment Number, Branch, Semester, Password (CGPA and skills are added in the profile, Task T05).
Company Recruiter	Full Name, Official Email, Phone, Company Name, Designation, Company Website, Password.
Placement Officer	Full Name, Email, Phone, Employee ID, Designation, Placement Cell/Department, Joining Date, Password.
Faculty Coordinator	Full Name, Email, Phone, Employee ID, Department, Designation, Joining Date, Password.
Administrator	Employee ID, Designation, Elevated-Access Login Credentials, Appointment Date, Scope of Access.

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP01-US02

User Login

Every registered user needs a secure way to log in with their credentials so they can access only the features permitted to their role.

Scope

Belongs to Epic EP-01 – User Management, Task T02 – User Login: authenticate the user and provide access to authorized features (Permission: Registered User; Precondition: A valid, active account exists). Implements the requirement that the system shall allow registered users to securely log in, and enforces the rule that a user must be authenticated before accessing protected features.

User Story:

- As a **Student**, I want to log in using my registered e-mail/phone and password, so that I can apply for opportunities and track my applications.
- As a **Company Recruiter**, I want to log in using my approved account, so that I can manage my opportunities and applicants.
- As a **Placement Officer**, I want to log in using my approved account, so that I can oversee the placement process.
- As a **Faculty Coordinator**, I want to log in using my approved account, so that I can monitor department placement reports.
- As an **Administrator**, I want to log in using my elevated credentials, so that I can manage users and system settings.

Permission Matrix:

Role	Log In With Own Credentials	Access Role-Based Dashboard	Reset Own Password	View Own Login History	Force Logout Other Users
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Allowed	Allowed	Allowed	Not Allowed
Company Recruiter	Allowed	Allowed	Allowed	Allowed	Not Allowed
Placement Officer	Allowed	Allowed	Allowed	Allowed	Not Allowed
Faculty Coordinator	Allowed	Allowed	Allowed	Allowed	Not Allowed
Administrator	Allowed	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest who has not completed registration, when they attempt to log in, then the system denies access and prompts them to register first.
  - Given a Guest enters unregistered credentials, when they submit, then the system shows an "invalid credentials" message without revealing which field was wrong.
- **Student:**
  - Given a Student enters a correct e-mail/phone and password, when they submit the login form, then the system authenticates them and opens the student dashboard.
  - Given a Student enters an incorrect password multiple times, when the attempt limit is reached, then the system temporarily locks the account and notifies the Student.
- **Company Recruiter:**
  - Given a Company Recruiter enters valid, approved credentials, when they log in, then the system opens the company dashboard limited to their own opportunities and applicants.
  - Given the recruiter's account is still pending approval, when they attempt to log in, then the system denies access and shows a pending-approval message.
- **Placement Officer:**
  - Given a Placement Officer enters valid, approved credentials, when they log in, then the system opens the placement dashboard with access to all opportunities and applications.
  - Given the account is deactivated by the Administrator, when they attempt to log in, then the system denies access and shows a deactivated-account message.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator enters valid, approved credentials, when they log in, then the system opens a read-only dashboard for the assigned department.
  - Given invalid credentials are entered, when submitted, then the system denies access and displays a generic error message.
- **Administrator:**
  - Given the Administrator enters valid elevated credentials, when they log in, then the system opens the full administrative dashboard with access to all modules.
  - Given repeated failed login attempts occur on the Administrator account, when the threshold is crossed, then the system locks the account and logs a security alert.
- **System:**
  - Given any login attempt, when credentials are checked, then the system verifies the hashed password without ever exposing it in logs or responses.

- Given a successful login, when the session starts, then the system issues a session token scoped only to that user's role-based permissions.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Valid credentials authenticate successfully; invalid ones are rejected with a generic error message.
- Failed login attempts are limited and accounts lock temporarily after repeated failures.
- Session tokens are scoped to the user's role and expire appropriately.
- Guests and unapproved accounts cannot access protected dashboards.
- Login flow tested for every role: Student, Company Recruiter, Placement Officer, Faculty Coordinator and Administrator.
- Login screen reviewed for simplicity and quick response time.

Additional Information:

- **Implements:** the system shall allow registered users to securely log in.
- **Business rules:** a user must be authenticated before accessing protected features.
- **Non-functional needs:** quick response to login requests (performance); protection of login credentials (security).
- **Dependency:** requires Task T01 – Register User to be completed first.
- **Assumption:** users remember their registered e-mail/phone and password.
- **Constraint:** internet connectivity is required to authenticate in real time.
- **Future enhancement:** OTP-based or biometric login may be added in a later version.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Cannot log in; must complete registration first.
Student	Registered College Email or Phone, Password.
Company Recruiter	Registered Official Email or Phone, Password.
Placement Officer	Registered Employee Email or Phone, Password.
Faculty Coordinator	Registered Employee Email or Phone, Password.
Administrator	Administrator Elevated-Access Username/Email and Password.

INDUSTRIAL ASSIGNMENT- 3

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP01-US03

User Logout

Every logged-in user needs a secure way to end their session so that their account and data stay protected on shared or public computers such as college labs.

Scope

Belongs to Epic EP-01 – User Management, Task T03 – User Logout: end the current user session securely (Permission: Logged-in User; Precondition: User is authenticated). Implements the requirement that the system shall allow registered users to securely log in and, by extension, securely end that session.

User Story:

- As a **Student**, I want to log out of my account, so that no one else can access my profile and applications on a shared lab computer.
- As a **Company Recruiter**, I want to log out after reviewing applicants, so that candidate information stays protected.
- As a **Placement Officer**, I want to log out after managing placements, so that my account stays secure.
- As a **Faculty Coordinator**, I want to log out after viewing reports, so that sensitive placement data is protected.
- As an **Administrator**, I want to log out after managing user accounts, so that elevated access is not left open.

Permission Matrix:

Role	Log Out of Own Session	End All Active Sessions	Force Logout Other Users	View Own Session Activity
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Allowed	Not Allowed	Allowed
Company Recruiter	Allowed	Allowed	Not Allowed	Allowed
Placement Officer	Allowed	Allowed	Not Allowed	Allowed
Faculty Coordinator	Allowed	Allowed	Not Allowed	Allowed
Administrator	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest has no active session, when they try to log out, then the system shows a message that no session exists.
  - Given a Guest is on the login page, when they click a logout-style link, then the system simply returns them to the login page.
- **Student:**
  - Given a Student is logged in, when they click logout, then the system ends the session and returns them to the login page.
  - Given a Student closes the browser without logging out, when the session timeout is reached, then the system automatically ends the session.
- **Company Recruiter:**
  - Given a Company Recruiter is logged in, when they log out, then the system ends the session and clears cached applicant data from the screen.
  - Given a recruiter forgets to log out, when the idle timeout is reached, then the system automatically logs them out.
- **Placement Officer:**
  - Given a Placement Officer is logged in, when they log out, then the system ends the session and prevents further access without re-authentication.
  - Given the officer is logged in on several devices, when they choose to end all sessions, then every active session is closed.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator is logged in, when they log out, then the system ends the session and returns them to the login page.
  - Given the coordinator presses the browser back button after logout, when the page loads, then no protected data is shown.
- **Administrator:**
  - Given the Administrator is logged in, when they force-logout another user, then that user's active sessions are closed and the action is recorded.
  - Given the Administrator logs out, when the session ends, then elevated access is revoked immediately.
- **System:**
  - Given a logout is requested, when processed, then the session token is invalidated and the logout time is recorded.
  - Given a session has expired, when any request is made with its token, then the system rejects it and asks the user to log in again.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Logout ends the session, invalidates the token and records the logout time.
- Idle sessions end automatically after the configured timeout.
- Back navigation after logout shows no protected data.
- Force logout by the Administrator works and is recorded.
- Logout tested for every role.
- Logout option reviewed to be clearly visible on every screen.

Additional Information:

- **Implements:** the system shall allow registered users to securely log in and end the session.
- **Business rules:** protected features require an authenticated session; ended sessions must not allow access.
- **Non-functional needs:** protection of user data on shared computers (security); quick response (performance).
- **Dependency:** requires Task T02 – Login to be completed first.
- **Assumption:** users log out when using shared computers.
- **Constraint:** session timeout depends on the configured idle period.
- **Future enhancement:** Automatic logout warnings and device-wise session management may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; no active session.
Student	Active session (logout action).
Company Recruiter	Active session (logout action).
Placement Officer	Active session; option to end all sessions.
Faculty Coordinator	Active session (logout action).
Administrator	Active session; target user for force logout.

INDUSTRIAL ASSIGNMENT- 3

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP01-US04

Manage User Access

The Administrator and Placement Officer need to control who can use the system and with what rights, so that only genuine users are active and everyone has the correct role.

Scope

Belongs to Epic EP-01 – User Management, Task T04 – Manage User Access: approve, change, deactivate or delete user accounts and roles (Permission: Administrator / Placement Officer; Precondition: Target account exists). Implements the requirement that the system shall allow authorized staff to manage user access, enforcing the rule that users can access only what their role permits.

User Story:

- As a **Placement Officer**, I want to approve or reject company recruiter registrations, so that only genuine companies can recruit from the college.
- As an **Administrator**, I want to approve pending registrations, so that verified staff and recruiters can start using the system.
- As an **Administrator**, I want to deactivate, reactivate or delete an account, so that access can be stopped when a user leaves or misuses the system.
- As an **Administrator**, I want to change a user's role, so that access matches the person's current responsibility.
- As an **Administrator**, I want to view the access history of accounts, so that every change can be audited.

Permission Matrix:

Role	View Account List	Approve / Reject Registration	Deactivate / Reactivate Account	Change User Role	View Access History
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Not Allowed	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Company Recruiter	Not Allowed	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Placement Officer	Allowed (read-only)	Allowed (company recruiters only)	Allowed (company recruiters only)	Not Allowed	Allowed (own actions)

Role	View Account List	Approve / Reject Registration	Deactivate / Reactivate Account	Change User Role	View Access History
Faculty Coordinator	Allowed (own department, read-only)	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Administrator	Allowed	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not registered, when they try to open user management, then the system denies access.
  - Given a Guest tries to open the page by a direct link, when blocked, then the system redirects to the login page.
- **Student:**
  - Given a Student is logged in, when they try to open user management, then the system denies access as it is outside their role.
  - Given a Student's account is deactivated, when they try to log in, then the system shows a deactivated-account message.
- **Company Recruiter:**
  - Given a Company Recruiter is logged in, when they try to approve or change any account, then the system denies the action.
  - Given the recruiter's registration is rejected, when they try to log in, then the system shows the rejection status and reason.
- **Placement Officer:**
  - Given a company recruiter registration is pending, when the Placement Officer approves it, then the account becomes active and the recruiter is notified.
  - Given the Placement Officer tries to change a user's role or manage a staff account, when attempted, then the system denies the action.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the account list, when loaded, then only users of the assigned department are shown in read-only form.
  - Given the coordinator tries to edit an account, when attempted, then the system denies the action.
- **Administrator:**

  - Given a pending registration exists, when the Administrator approves it with a reason, then the status changes to Active and the change is saved in the access history.
  - Given the Administrator changes a role, deactivates or deletes an account, when confirmed, then the change is applied, a history record is created and the user is notified.
- **System:**
  - Given an account status or role changes, when saved, then the old and new values, the acting user, the reason and the time are recorded.
  - Given a deleted account is referenced by earlier records, when deletion is requested, then the system preserves the history and warns about the impact.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Approve, reject, deactivate, reactivate, change-role and delete actions work for the permitted roles only.
- Every change creates an access history record (old value, new value, reason, performed by, time).
- Deactivated and rejected users cannot log in; the correct message is shown.
- Destructive actions require confirmation.
- Access management tested for every role.
- Account list reviewed for simple search and clear status labels.

Additional Information:

- **Implements:** the system shall allow administrators to manage user accounts, roles and access.
- **Business rules:** recruiter, placement officer and faculty coordinator accounts remain pending until approved; every access change is recorded.
- **Non-functional needs:** security of access control; auditability of changes; quick loading of account lists (performance).
- **Dependency:** requires Task T01 – Register User; pending accounts must exist for approval.
- **Assumption:** the Administrator verifies identity details before approving an account.
- **Constraint:** internet connectivity is required to apply changes in real time.
- **Future enhancement:** Bulk approval, scheduled access expiry and e-mail alerts for access changes may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; access management requires a registered role.
Student	Not applicable; outside role permissions.
Company Recruiter	Not applicable; outside role permissions.
Placement Officer	Company Recruiter account selection, Decision (Approve/Reject), Reason.
Faculty Coordinator	Search criteria for the department's account list (read-only).
Administrator	Account selection, Action (Approve/Reject/Activate/Deactivate/Change Role/Delete), New Role or Status, Reason.

INDUSTRIAL ASSIGNMENT- 3

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP02-US01

Create Student Profile

Every student needs one complete, accurate profile so that recruiters and the placement cell can judge eligibility without asking for the same details again and again.

Scope

Belongs to Epic EP-02 – Student Profile Management, Task T05 – Create Student Profile: create the student's academic and personal profile (Permission: Student; Precondition: Student account is active). Implements the requirement that the system shall allow students to create and maintain a profile used for opportunity eligibility.

User Story:

- As a **Student**, I want to create my profile with academic, skill and contact details, so that I can apply to opportunities without re-entering information.
- As a **Placement Officer**, I want to verify the academic details entered by students, so that only accurate eligibility data is used.
- As a **Faculty Coordinator**, I want to see profile completion of my department students, so that I can guide them to complete their profiles.
- As an **Administrator**, I want to review student profiles, so that incorrect or duplicate records can be corrected.

Permission Matrix:

Role	Create Own Profile	View Own Profile	Verify Academic Details	View Other Profiles
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed (own only)	Allowed	Not Allowed	Not Allowed
Company Recruiter	Not Allowed	Not Allowed	Not Allowed	Allowed (applicants only, Task T06)
Placement Officer	Not Allowed	Not Allowed	Allowed	Allowed
Faculty Coordinator	Not Allowed	Not Allowed	Not Allowed	Allowed (own department, read-only)
Administrator	Not Allowed	Not Allowed	Not Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to create a profile, then the system denies access and asks them to log in.
  - Given a Guest uses a direct link to the profile page, when blocked, then the system redirects to the login page.
- **Student:**
  - Given a Student with an active account enters valid personal, academic and skill details, when they save, then the profile is created and marked "pending verification".
  - Given mandatory fields are empty or the CGPA is outside 0–10, when submitted, then the system rejects the entry and highlights the exact fields.
- **Company Recruiter:**
  - Given a Company Recruiter is logged in, when they try to create a student profile, then the system denies the action.
  - Given a recruiter needs candidate details, when they open an applicant, then only the permitted profile view is offered (Task T06).
- **Placement Officer:**
  - Given a student profile is pending verification, when the Placement Officer verifies it, then the status changes to "verified" and the student is notified.
  - Given the submitted CGPA looks incorrect, when the officer rejects it with a reason, then the student is asked to correct the entry.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the department list, when loaded, then profile completion status is shown in read-only form.
  - Given the coordinator tries to create or edit a profile, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens a profile, when reviewed, then the full record is shown for correction of duplicates or errors.
  - Given a student already has a profile, when a second profile is created, then the system blocks it and shows the existing one.
- **System:**
  - Given a profile is saved, when validated, then it is linked to exactly one student account.

- Given the enrollment number already exists in another profile, when saved, then the system rejects the duplicate.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Valid profiles are saved; incomplete or invalid data is rejected with clear messages.
- One profile per student is enforced.
- Verification by the Placement Officer works and the status is visible to the student.
- Profile creation tested for the Student role and access denial tested for other roles.
- Profile form reviewed for simplicity and logical grouping of fields.

Additional Information:

- **Implements:** the system shall allow a student to create a profile with academic and skill details.
- **Business rules:** one profile per student; invalid or incomplete data is never accepted; academic details are verified by the Placement Officer.
- **Non-functional needs:** usability of the profile form; protection of personal data (security/privacy).
- **Dependency:** requires Task T01 – Register User and T02 – Login; precondition for Task T13 – Apply for Opportunity.
- **Assumption:** students know their correct CGPA, semester and skills.
- **Constraint:** CGPA is self-entered and then verified manually in the first version.
- **Future enhancement:** Import of academic results from the college examination system may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; profile creation requires login.
Student	Full Name, Enrollment Number, Branch, Semester, CGPA, Number of Backlogs, Skills, Address, Phone, Date of Birth, LinkedIn/GitHub link (optional).
Company Recruiter	Not applicable; outside role permissions.
Placement Officer	Student selection, Verification Decision, Reason.
Faculty Coordinator	Department filter (read-only).
Administrator	Student selection for review and correction.

INDUSTRIAL ASSIGNMENT- 3

INDUSTRIAL ASSIGNMENT- 3

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP02-US02

View Student Profile

Different people need different levels of visibility into a student's profile so that decisions can be made without exposing private details unnecessarily.

Scope

Belongs to Epic EP-02 – Student Profile Management, Task T06 – View Student Profile: display student profile information (Permission: Authorized User; Precondition: Student profile exists). Implements the requirement that the system shall allow authorized users to view student profiles, enforcing the rule that users can access only information permitted by their role.

User Story:

- As a **Student**, I want to view my own profile and its verification status, so that I know my information is complete and accepted.
- As a **Company Recruiter**, I want to view the profile and resume of students who applied to my opportunities, so that I can decide whom to shortlist.
- As a **Placement Officer**, I want to view any student profile, so that I can check eligibility and support students.
- As a **Faculty Coordinator**, I want to view profiles of my department students, so that I can monitor their readiness.
- As an **Administrator**, I want to view every profile, so that I can oversee records and resolve issues.

Permission Matrix:

Role	View Own Profile	View Applicant Profile	View Any Profile	View Contact Details
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Not Allowed	Not Allowed	Allowed (own only)
Company Recruiter	Not Allowed	Allowed (applicants to own opportunities only)	Not Allowed	Allowed (applicants only)
Placement Officer	Not Allowed	Allowed	Allowed	Allowed

Role	View Own Profile	View Applicant Profile	View Any Profile	View Contact Details
Faculty Coordinator	Not Allowed	Not Allowed	Allowed (own department, read-only)	Masked
Administrator	Not Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to view a profile, then the system denies access.
  - Given a Guest becomes a Student, when approved, then they can view only their own profile.
- **Student:**
  - Given a Student opens the profile page, when loaded, then the system shows only their own details and verification status.
  - Given a Student tries to view another student's profile, when attempted, then the system denies the action.
- **Company Recruiter:**
  - Given a student applied to the recruiter's opportunity, when the recruiter opens the applicant, then the system shows academic details, skills and resume.
  - Given the student did not apply to the recruiter's opportunities, when the recruiter tries to view the profile, then the system denies access.
- **Placement Officer:**
  - Given the Placement Officer searches for a student, when opened, then the full profile and verification status are shown.
  - Given the officer views a profile, when contact details are needed, then they are displayed in full for placement purposes.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the department list, when a student is selected, then the profile is shown read-only with masked contact details.
  - Given the coordinator tries to view a student of another department, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens any profile, when loaded, then the full record is shown.

    - Given the Administrator views many profiles, when needed, then the system supports paging and search.
- **System:**
    - Given a profile view is requested, when processed, then the system checks the requester's role and scope before returning data.
    - Given sensitive fields exist, when shown to roles with limited access, then they are masked.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Each role sees only the profile data permitted to it.
- Recruiters see only applicants of their own opportunities.
- Contact details are masked where not required.
- Profile viewing tested for every role's data scope.
- Profile layout reviewed for readability.

Additional Information:

- **Implements:** the system shall allow authorized users to view student profiles.
- **Business rules:** users should only access information permitted by their role.
- **Non-functional needs:** privacy of student data (security); quick loading (performance).
- **Dependency:** requires Task T05 – Create Student Profile.
- **Assumption:** profiles are created before they are viewed.
- **Constraint:** internet connectivity is required to load profiles.
- **Future enhancement:** Downloadable profile summary (PDF) may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; viewing requires a registered role.
Student	Own profile (automatic).
Company Recruiter	Applicant selection from own opportunity.
Placement Officer	Student name, Enrollment Number or Branch for lookup.
Faculty Coordinator	Department students list (read-only).
Administrator	Student name, Enrollment Number, Branch or Status for lookup.

INDUSTRIAL ASSIGNMENT- 3

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP02-US03

Edit Student Profile

Student details change — semester results, skills, phone numbers — so profiles must be editable while every change stays traceable.

Scope

Belongs to Epic EP-02 – Student Profile Management, Task T07 – Edit Student Profile: update student profile information (Permission: Student / Placement Officer; Precondition: Student profile exists). Implements the requirement that the system shall allow students to update their profile and keep a record of changes.

User Story:

- As a **Student**, I want to edit my profile details, so that recruiters always see my latest information.
- As a **Placement Officer**, I want to correct or verify a student's academic details, so that eligibility checks use accurate data.
- As an **Administrator**, I want to review the edit history of a profile, so that changes can be audited.

Permission Matrix:

Role	Edit Own Profile	Edit Academic Details (CGPA, Semester)	Edit Any Profile	View Edit History
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Allowed (re-verification required)	Not Allowed	Allowed (own only)
Company Recruiter	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Placement Officer	Not Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Not Allowed	Not Allowed	Not Allowed	Allowed (own department, read-only)
Administrator	Not Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to edit a profile, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student edits contact or skill details with valid data, when saved, then the profile is updated and the change is recorded.
  - Given a Student changes CGPA or semester, when saved, then the profile returns to "pending verification".
- **Company Recruiter:**
  - Given a Company Recruiter views an applicant, when they try to edit the profile, then the system denies the action.
  - Given a recruiter needs a correction, when they raise it, then only the Placement Officer can change the data.
- **Placement Officer:**
  - Given the Placement Officer corrects a student's academic data with a reason, when saved, then the profile is updated, marked verified and the change is recorded.
  - Given the officer leaves the reason empty, when submitted, then the system requests a reason.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens a department student's profile, when they try to edit it, then the system denies the action.
  - Given the coordinator opens the edit history, when loaded, then it is shown read-only for the department.
- **Administrator:**
  - Given the Administrator edits a profile to fix a duplicate or error, when saved, then the change is applied with a reason and recorded.
  - Given the Administrator opens the edit history, when loaded, then all changes of a student are shown newest first.
- **System:**
  - Given a profile field changes, when saved, then the field name, old value, new value, reason, editor and time are stored.
  - Given invalid data is entered, when submitted, then the system rejects the change and keeps the earlier values.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Valid edits are saved; invalid edits are rejected and earlier data is preserved.
- Academic changes trigger re-verification.
- Every edit is recorded with old and new values.
- Edit flow tested for every role's permissions.
- Edit form reviewed for simplicity.

Additional Information:

- **Implements:** the system shall allow students to edit their profile and record the changes.
- **Business rules:** every change to profile data must be recorded; academic changes need re-verification.
- **Non-functional needs:** accuracy and auditability of data; usability.
- **Dependency:** requires Task T05 – Create Student Profile.
- **Assumption:** students update details when something changes.
- **Constraint:** edit history keeps the previous value of each changed field.
- **Future enhancement:** Approval workflow for sensitive field changes may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; editing requires login.
Student	Editable fields: Phone, Address, Skills, Links, Semester, CGPA, Backlogs.
Company Recruiter	Not applicable; outside role permissions.
Placement Officer	Student selection, Field, New Value, Reason, Verification Decision.
Faculty Coordinator	Not applicable; read-only access to edit history.
Administrator	Student selection, Field, New Value, Reason.

INDUSTRIAL ASSIGNMENT- 3

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP02-US04

Upload and Manage Resume

Students need to upload one resume and keep it up to date so that every application carries the latest document.

Scope

Belongs to Epic EP-02 – Student Profile Management, Task T08 – Upload and Manage Resume: upload, replace, view and delete the student's resume (Permission: Student; Precondition: Student profile exists). Implements the requirement that the system shall allow students to upload a resume that is reused for all applications.

User Story:

- As a **Student**, I want to upload, replace and delete my resume, so that recruiters always see my latest resume.
- As a **Company Recruiter**, I want to view the resume of applicants, so that I can evaluate them.
- As a **Placement Officer**, I want to view or remove inappropriate resumes, so that the quality of documents is maintained.

Permission Matrix:

Role	Upload / Replace Own Resume	Delete Own Resume	View Resume	Remove Any Resume
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Allowed	Allowed (own only)	Not Allowed
Company Recruiter	Not Allowed	Not Allowed	Allowed (applicants only)	Not Allowed
Placement Officer	Not Allowed	Not Allowed	Allowed	Allowed
Faculty Coordinator	Not Allowed	Not Allowed	Allowed (own department, read-only)	Not Allowed
Administrator	Not Allowed	Not Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**

  - Given a Guest is not logged in, when they try to upload a resume, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student selects a PDF within the size limit, when they upload, then the resume is saved and linked to the profile.
  - Given the file is not a PDF or exceeds the size limit, when submitted, then the system rejects it with a clear message.
- **Company Recruiter:**
  - Given a student applied to the recruiter's opportunity, when the recruiter opens the applicant, then the resume can be viewed or downloaded.
  - Given the student did not apply, when the recruiter tries to open the resume, then the system denies access.
- **Placement Officer:**
  - Given the Placement Officer opens a student profile, when they view the resume, then it opens for review.
  - Given a resume is inappropriate, when the officer removes it with a reason, then it is removed and the student is notified.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens a department student, when they view the resume, then it opens read-only.
  - Given the coordinator tries to upload or delete a resume, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens any student, when they view the resume, then it opens for review.
  - Given the Administrator removes a resume, when confirmed, then the removal is recorded.
- **System:**
  - Given a new resume is uploaded, when saved, then the earlier file is replaced and the upload time is recorded.
  - Given an uploaded file is received, when processed, then the system checks its type and size before saving.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Only accepted file types and sizes are stored.

- Replacement keeps one current resume per student.
- Resume access is limited to permitted roles.
- Upload, replace, view and delete tested for every role.
- Upload screen reviewed for clear instructions and feedback.

Additional Information:

- **Implements:** the system shall allow students to upload and manage a resume.
- **Business rules:** only accepted file types and sizes are allowed; resume visibility follows role permissions.
- **Non-functional needs:** file security and privacy; quick upload (performance).
- **Dependency:** requires Task T05 – Create Student Profile; used by Task T13 – Apply for Opportunity.
- **Assumption:** students have their resume in PDF format.
- **Constraint:** only PDF files up to 2 MB are accepted in the first version.
- **Future enhancement:** Multiple resume versions and in-portal resume builder may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Resume file (PDF, maximum 2 MB).
Company Recruiter	Applicant selection to view the resume.
Placement Officer	Student selection, Action (View/Remove), Reason for removal.
Faculty Coordinator	Department student selection (view only).
Administrator	Student selection, Action (View/Remove), Reason for removal.

INDUSTRIAL ASSIGNMENT- 3

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP03-US01

Create Company Profile

Each recruiting company needs a clear profile so that students and the placement cell know who is offering opportunities.

Scope

Belongs to Epic EP-03 – Company and Opportunity Management, Task T09 – Create Company Profile: create or update the company profile (Permission: Company Recruiter; Precondition: Recruiter account is approved and active). Implements the requirement that the system shall allow approved recruiters to maintain company information used with opportunities.

User Story:

- As a **Company Recruiter**, I want to create my company profile with industry, location and HR details, so that students and the placement cell can trust and contact us.
- As a **Placement Officer**, I want to review company profiles, so that only genuine and complete companies are listed.
- As a **Student**, I want to view company details, so that I can learn about the company before applying.
- As an **Administrator**, I want to review and correct company records, so that data stays accurate.

Permission Matrix:

Role	Create / Update Company Profile	View Company Profile	Review / Correct Company Data
Guest	Not Allowed	Not Allowed	Not Allowed
Student	Not Allowed	Allowed (published companies)	Not Allowed
Company Recruiter	Allowed (own company only)	Allowed (own company)	Not Allowed
Placement Officer	Not Allowed	Allowed	Allowed
Faculty Coordinator	Not Allowed	Allowed (read-only)	Not Allowed
Administrator	Not Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**

- Given a Guest is not logged in, when they try to create a company profile, then the system denies access.
- Given a Guest tries to view company details, when attempted, then the system asks them to log in.

- **Student:**
  - Given a Student opens a company page, when loaded, then the company description, industry, location and its open opportunities are shown.
  - Given a Student tries to edit a company profile, when attempted, then the system denies the action.
- **Company Recruiter:**
  - Given an approved Company Recruiter enters valid company details, when they save, then the company profile is created and linked to the recruiter.
  - Given mandatory fields are empty or the website format is invalid, when submitted, then the system rejects the entry and flags the fields.
- **Placement Officer:**
  - Given a new company profile is created, when the Placement Officer reviews it, then the officer can accept it or request corrections.
  - Given the profile is incomplete, when the officer requests correction, then the recruiter is notified.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens a company page, when loaded, then the details are shown read-only.
  - Given the coordinator tries to change company data, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens any company, when reviewed, then the full record is shown and can be corrected.
  - Given a duplicate company profile exists, when found, then the Administrator can correct or merge the record.
- **System:**
  - Given a company profile is saved, when validated, then it is linked to exactly one approved recruiter account.
  - Given a company with the same name and website exists, when a new profile is saved, then the system warns about a possible duplicate.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.

- Valid company profiles are saved; invalid or incomplete data is rejected.
- A recruiter can edit only their own company.
- Duplicate companies are detected and flagged.
- Company profile flow tested for every role.
- Company form reviewed for simplicity.

Additional Information:

- **Implements:** the system shall allow an approved recruiter to create and update the company profile.
- **Business rules:** only approved recruiters can create a company profile; invalid or incomplete data is never accepted.
- **Non-functional needs:** usability; accuracy of company data.
- **Dependency:** requires Task T04 – Manage User Access (recruiter approval); precondition for Task T10 – Post Opportunity.
- **Assumption:** recruiters provide correct and current company information.
- **Constraint:** company logo upload is not included in the first version.
- **Future enhancement:** Company logo, social links and company rating may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Company selection (view only).
Company Recruiter	Company Name, Industry, Website, Location/Address, HR Name, HR Email, HR Phone, Company Description, Company Size (optional).
Placement Officer	Company selection, Review Decision, Comment.
Faculty Coordinator	Company selection (view only).
Administrator	Company selection, Corrections, Reason.

INDUSTRIAL ASSIGNMENT- 3

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP03-US02

Post Opportunity

Companies need an easy way to publish internships and job openings with clear eligibility so that the right students can apply on time.

Scope

Belongs to Epic EP-03 – Company and Opportunity Management, Task T10 – Post Opportunity: publish a new internship or placement opportunity (Permission: Company Recruiter / Placement Officer; Precondition: Company profile exists). Implements the requirement that the system shall allow companies to post opportunities with eligibility, compensation and deadline.

User Story:

- As a **Company Recruiter**, I want to post an internship or placement opportunity with eligibility and deadline, so that suitable students can apply.
- As a **Placement Officer**, I want to post an opportunity on behalf of a company, so that drives arranged offline are also visible to students.
- As a **Student**, I want to see newly posted opportunities with all details, so that I can apply before the deadline.
- As an **Administrator**, I want to monitor posted opportunities, so that wrong or duplicate postings can be corrected.

Permission Matrix:

Role	Post Opportunity	View Open Opportunities	Post on Behalf of Company	Monitor All Opportunities
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Not Allowed	Allowed	Not Allowed	Not Allowed
Company Recruiter	Allowed (own company only)	Allowed	Not Allowed	Allowed (own only)
Placement Officer	Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Not Allowed	Allowed (read-only)	Not Allowed	Allowed (read-only)
Administrator	Allowed	Allowed	Not Allowed	Allowed

Acceptance Criteria:

- **Guest:**

- Given a Guest is not logged in, when they try to post an opportunity, then the system denies access.
- Given a Guest opens the opportunity list directly, when attempted, then the system asks them to log in.

- **Student:**
  - Given an opportunity is posted, when a Student opens the list, then it appears with company, type, eligibility, compensation and deadline.
  - Given a Student tries to post an opportunity, when attempted, then the system denies the action.
- **Company Recruiter:**
  - Given an approved recruiter with a company profile enters valid details and a future deadline, when they publish, then the opportunity is saved as Open and becomes visible to students.
  - Given mandatory fields are empty, the deadline is in the past or the CGPA is outside 0–10, when submitted, then the system rejects it and flags the exact error.
- **Placement Officer:**
  - Given the Placement Officer selects a company, when they post an opportunity, then it is saved with the officer recorded as the poster.
  - Given the officer posts a duplicate of an existing open opportunity, when detected, then the system warns before saving.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the list, when loaded, then opportunities are shown read-only.
  - Given the coordinator tries to post an opportunity, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens the monitor view, when loaded, then all opportunities with status are listed.
  - Given a wrong posting exists, when the Administrator closes or edits it, then the change is recorded.
- **System:**
  - Given an opportunity is saved, when validated, then it is linked to exactly one company and has type Internship or Placement.
  - Given the deadline passes, when the date changes, then the system automatically marks the opportunity as Closed.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Valid opportunities are saved and visible to students; invalid ones are rejected.
- Deadline and eligibility values are validated.
- Expired opportunities close automatically.
- Posting tested for every role.
- Posting form reviewed for clear fields and helpful hints.

Additional Information:

- **Implements:** the system shall allow recruiters to post internship and placement opportunities.
- **Business rules:** only opportunities of approved companies with a company profile are visible; invalid or incomplete data is never accepted.
- **Non-functional needs:** usability of the posting form; accurate display of eligibility (accuracy).
- **Dependency:** requires Task T09 – Create Company Profile; precondition for Task T13 – Apply for Opportunity.
- **Assumption:** recruiters know the eligibility criteria they require.
- **Constraint:** attachments such as job-description files are not supported in the first version.
- **Future enhancement:** Opportunity draft saving, scheduled publishing and attachments may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Not applicable; view only.
Company Recruiter	Title, Type (Internship/Placement), Description, Location, Minimum CGPA, Eligible Branches, Eligible Semester, Maximum Backlogs, Stipend/Package, Vacancies, Application Deadline.
Placement Officer	Company selection and all opportunity details listed for the recruiter.
Faculty Coordinator	Not applicable; view only.
Administrator	Opportunity selection for monitoring or correction.

INDUSTRIAL ASSIGNMENT- 3

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP03-US03

Edit Opportunity

Opportunity details may change after posting — vacancies, deadlines or eligibility — so owners need to update them while every change remains traceable.

Scope

Belongs to Epic EP-03 – Company and Opportunity Management, Task T11 – Edit Opportunity: update an existing opportunity (Permission: Company Recruiter / Placement Officer; Precondition: Opportunity exists). Implements the requirement that the system shall allow opportunities to be updated and keep a record of every change.

User Story:

- As a **Company Recruiter**, I want to edit my posted opportunity, so that students see correct and current information.
- As a **Placement Officer**, I want to correct any opportunity, so that errors do not mislead students.
- As an **Administrator**, I want to review the edit history of opportunities, so that changes can be audited.

Permission Matrix:

Role	Edit Own Opportunity	Edit Any Opportunity	Change Deadline	View Edit History
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Company Recruiter	Allowed	Not Allowed	Allowed (own only)	Allowed (own only)
Placement Officer	Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Not Allowed	Not Allowed	Not Allowed	Allowed (read-only)
Administrator	Not Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to edit an opportunity, then the system denies access.

  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student is logged in, when they try to edit an opportunity, then the system denies the action.
  - Given an opportunity is edited, when the Student opens it, then the updated details are shown.
- **Company Recruiter:**
  - Given a recruiter edits their own opportunity with valid data, when saved, then the changes are applied and the edit is recorded.
  - Given students have already applied, when the recruiter lowers eligibility or changes the type, then the system warns or blocks the change to protect existing applications.
- **Placement Officer:**
  - Given the Placement Officer corrects an opportunity with a reason, when saved, then the opportunity is updated and the change is recorded.
  - Given the officer extends a deadline, when saved, then the opportunity remains Open until the new date.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the edit history, when loaded, then it is shown read-only.
  - Given the coordinator tries to edit, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens an opportunity, when they edit it with a reason, then the change is saved and recorded.
  - Given the Administrator opens the edit history, when loaded, then old and new values are shown newest first.
- **System:**
  - Given an opportunity field changes, when saved, then the old value, new value, reason, editor and time are stored.
  - Given invalid data is entered, when submitted, then the system rejects the change and keeps earlier values.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Valid edits are saved; invalid edits are rejected.
- Changes affecting existing applications are warned or blocked.

- Every edit is recorded in the edit history.
- Edit flow tested for every role.
- Edit screen reviewed for simplicity.

Additional Information:

- **Implements:** the system shall allow editing of opportunities and maintain edit history.
- **Business rules:** every opportunity change must be recorded; recruiters can edit only their own opportunities.
- **Non-functional needs:** accuracy and auditability; usability.
- **Dependency:** requires Task T10 – Post Opportunity.
- **Assumption:** owners review details before the deadline.
- **Constraint:** type of opportunity cannot be changed once applications exist.
- **Future enhancement:** Automatic student notification of important changes may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Not applicable; view only.
Company Recruiter	Opportunity selection, Editable fields (Description, Location, Eligibility, Compensation, Vacancies, Deadline), Reason.
Placement Officer	Opportunity selection, Fields to change, Reason.
Faculty Coordinator	Not applicable; read-only edit history.
Administrator	Opportunity selection, Fields to change, Reason.

INDUSTRIAL ASSIGNMENT- 3

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP03-US04

Close or Delete Opportunity

Opportunities must be closed when hiring is complete and removed when posted by mistake, without losing records that applications depend on.

Scope

Belongs to Epic EP-03 – Company and Opportunity Management, Task T12 – Close or Delete Opportunity: close or soft-delete an opportunity and restore it if required (Permission: Company Recruiter / Placement Officer / Administrator; Precondition: Opportunity exists). Implements the requirement that the system shall allow opportunities to be closed or removed while preserving history.

User Story:

- As a **Company Recruiter**, I want to close my opportunity when hiring is complete, so that no new applications are received.
- As a **Placement Officer**, I want to close or delete an opportunity, so that outdated or incorrect postings are removed from student view.
- As an **Administrator**, I want to delete and restore opportunities, so that mistakes can be reversed safely.

Permission Matrix:

Role	Close Own Opportunity	Close Any Opportunity	Delete Opportunity	Restore Deleted Opportunity
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Company Recruiter	Allowed	Not Allowed	Allowed (own, with no selected applicants)	Not Allowed
Placement Officer	Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Administrator	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**

  - Given a Guest is not logged in, when they try to close or delete an opportunity, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given an opportunity is closed, when a Student opens it, then it is shown as Closed and the Apply option is disabled.
  - Given a Student tries to close or delete an opportunity, when attempted, then the system denies the action.
- **Company Recruiter:**
  - Given a recruiter closes their opportunity, when confirmed, then the status changes to Closed and new applications are blocked.
  - Given the opportunity has selected applicants, when the recruiter tries to delete it, then the system blocks deletion and allows only closing.
- **Placement Officer:**
  - Given the Placement Officer deletes an opportunity with a reason, when confirmed, then it is removed from student view and a deletion record is saved.
  - Given an opportunity was deleted by mistake, when the officer restores it, then it returns with its previous status.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator tries to close or delete, when attempted, then the system denies the action.
  - Given the coordinator opens the closed list, when loaded, then closed opportunities are visible read-only.
- **Administrator:**
  - Given the Administrator deletes an opportunity, when confirmed, then the opportunity is soft-deleted with the reason, user and time.
  - Given the Administrator restores an opportunity, when confirmed, then the restore time is recorded.
- **System:**
  - Given an opportunity is deleted, when processed, then related applications and history are preserved.
  - Given an action is destructive, when requested, then the system asks for confirmation first.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Close, delete and restore actions work for permitted roles only.

- Deleted opportunities are hidden from students but kept in history.
- Related applications are never lost.
- Destructive actions require confirmation.
- Flow tested for every role.
- Confirmation dialogs reviewed for clarity.

Additional Information:

- **Implements:** the system shall allow closing, deleting and restoring opportunities.
- **Business rules:** closed or deleted records are kept in history and are not permanently erased by normal users.
- **Non-functional needs:** data integrity; auditability; usability of confirmations.
- **Dependency:** requires Task T10 – Post Opportunity; affects Task T13 – Apply for Opportunity.
- **Assumption:** owners close opportunities once the vacancies are filled.
- **Constraint:** permanent deletion is not offered to normal users.
- **Future enhancement:** Automatic closing when vacancies are filled may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Not applicable; view only.
Company Recruiter	Opportunity selection, Action (Close), Confirmation.
Placement Officer	Opportunity selection, Action (Close/Delete/Restore), Reason, Confirmation.
Faculty Coordinator	Not applicable; outside role permissions.
Administrator	Opportunity selection, Action (Close/Delete/Restore), Reason, Confirmation.

INDUSTRIAL ASSIGNMENT- 3

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP04-US01

Apply for Opportunity

Students need a simple way to apply to opportunities while the system checks eligibility, deadlines and duplicates so that applications are valid.

Scope

Belongs to Epic EP-04 – Application Management, Task T13 – Apply for Opportunity: submit an application to an open opportunity (Permission: Student; Precondition: Opportunity is open and the student is eligible). Implements the requirement that the system shall allow eligible students to apply for open opportunities and prevent duplicate or ineligible applications.

User Story:

- As a **Student**, I want to apply for an open opportunity with one click using my profile and resume, so that my application reaches the company quickly.
- As a **Company Recruiter**, I want to receive applications only from eligible students, so that I review genuine candidates.
- As a **Placement Officer**, I want to apply on behalf of a student in special cases, so that students without access are not left out.
- As an **Administrator**, I want to monitor all applications, so that duplicate or invalid applications can be investigated.

Permission Matrix:

Role	Apply for Opportunity	View Eligibility Result	Apply on Behalf of Student	View Applications Received
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed (own only)	Allowed	Not Allowed	Not Allowed
Company Recruiter	Not Allowed	Not Allowed	Not Allowed	Allowed (own opportunities only)
Placement Officer	Not Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Not Allowed	Not Allowed	Not Allowed	Allowed (read-only)
Administrator	Not Allowed	Not Allowed	Not Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to apply, then the system denies access and asks them to log in.
  - Given a Guest uses a direct link to an application page, when blocked, then the system redirects to login.
- **Student:**
  - Given an eligible Student applies before the deadline, when they confirm, then the application is saved with status Applied and the profile and resume are attached.
  - Given the Student does not meet CGPA, branch, semester or backlog conditions, when they try to apply, then the system rejects the application and explains the reason.
- **Company Recruiter:**
  - Given students apply to the recruiter's opportunity, when the recruiter opens the applications, then only valid applications are shown.
  - Given a recruiter tries to apply as a student, when attempted, then the system denies the action.
- **Placement Officer:**
  - Given a special case is approved, when the Placement Officer applies on behalf of an eligible student, then the application is saved with the officer recorded.
  - Given the student has already accepted a placement offer, when applying for another placement, then the system blocks it unless the officer grants an exception.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens applications, when loaded, then they are shown read-only for the department.
  - Given the coordinator tries to apply, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens the application list, when loaded, then all applications are visible with status.
  - Given a duplicate application is suspected, when checked, then the Administrator can see both records and the creation time.
- **System:**
  - Given an application is submitted, when processed, then the system checks that the opportunity is Open, the deadline is not over, eligibility is met and the student has not already applied.

- Given an application is saved, when completed, then an initial status history record is created.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Eligible applications succeed; ineligible, late and duplicate applications are rejected with clear reasons.
- The initial status history record is created.
- Placement-offer restriction is enforced.
- Application flow tested for every role.
- Apply screen reviewed for simplicity and clear feedback.

Additional Information:

- **Implements:** the system shall allow eligible students to apply for open opportunities.
- **Business rules:** a student can apply only once to an open opportunity before the deadline if eligible; a student with an accepted placement offer cannot apply for more placements without an exception.
- **Non-functional needs:** quick response when applying (performance); accuracy of eligibility checks.
- **Dependency:** requires Tasks T05 – Create Student Profile, T08 – Resume and T10 – Post Opportunity.
- **Assumption:** students keep their profile and resume up to date before applying.
- **Constraint:** internet connectivity is required to submit applications in real time.
- **Future enhancement:** Cover letters and custom application questions may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Opportunity selection, Confirmation (profile and current resume attached automatically).
Company Recruiter	Not applicable; receives applications.
Placement Officer	Student selection, Opportunity selection, Reason for applying on behalf.
Faculty Coordinator	Not applicable; read-only access.
Administrator	Application list filters (read-only).
