STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP04-US02

View Application Details

Everyone involved in an application needs the right level of visibility into its details and status so that the process stays clear and nobody is confused about the current stage.

Scope

Belongs to Epic EP-04 – Application Management, Task T14 – View Application Details: display application information and status (Permission: Authorized User; Precondition: Application exists). Implements the requirement that the system shall allow users to track application status, enforcing the rule that users can access only information permitted by their role.

User Story:

- As a **Student**, I want to view the status and history of my own applications, so that I know what stage each one has reached.
- As a **Company Recruiter**, I want to view the applications received for my opportunities, so that I can review the candidates.
- As a **Placement Officer**, I want to view every application in detail, so that I can follow up and resolve issues.
- As a **Faculty Coordinator**, I want to view application summaries of my department students, so that I can identify students needing support.
- As an **Administrator**, I want to view every application, so that I can oversee the process.

Permission Matrix:

Role	View Own Applications	View Applications of Own Opportunities	View All Applications	View Status History
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Not Allowed	Not Allowed	Allowed (own only)
Company Recruiter	Not Allowed	Allowed	Not Allowed	Allowed (own opportunities only)
Placement Officer	Not Allowed	Allowed	Allowed	Allowed

Role	View Own Applications	View Applications of Own Opportunities	View All Applications	View Status History
Faculty Coordinator	Not Allowed	Not Allowed	Allowed (own department, read-only)	Allowed (read-only)
Administrator	Not Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to view an application, then the system denies access.
  - Given a Guest becomes a Student, when approved, then they can view only their own applications.
- **Student:**
  - Given a Student opens the application list, when loaded, then only their own applications are shown with opportunity, date and current status.
  - Given a Student tries to view another student's application, when attempted, then the system denies the action.
- **Company Recruiter:**
  - Given a recruiter opens an opportunity, when applications load, then all applications for that opportunity are shown with student profile and resume links.
  - Given a recruiter tries to view applications of another company, when attempted, then the system denies access.
- **Placement Officer:**
  - Given the Placement Officer opens the application list, when loaded, then all applications are shown with filters by company, branch and status.
  - Given the officer opens an application, when viewed, then the complete status history is shown.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the department view, when loaded, then application counts and statuses of department students are shown read-only.
  - Given the coordinator tries to change an application, when attempted, then the system denies the action.
- **Administrator:**

  - Given the Administrator opens any application, when loaded, then the full details and status history are shown.
  - Given the Administrator reviews a disputed application, when needed, then the system shows who changed each status and when.
- **System:**
  - Given an application is requested, when processed, then the system checks the requester's role and ownership before returning data.
  - Given status changes exist, when the history is opened, then entries are shown in time order.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Each role sees only the applications permitted to it.
- Status history is complete and in order.
- Application views tested for every role's data scope.
- Application list reviewed for readability and clear status labels.

Additional Information:

- **Implements:** the system shall allow users to track application status.
- **Business rules:** users should only access information permitted by their role.
- **Non-functional needs:** quick loading (performance); accurate, current status (accuracy).
- **Dependency:** requires Task T13 – Apply for Opportunity.
- **Assumption:** users check application status regularly.
- **Constraint:** internet connectivity is required to view live status.
- **Future enhancement:** Push or e-mail notification on every status change may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Own applications (automatic); optional status filter.
Company Recruiter	Opportunity selection; optional status filter.
Placement Officer	Company, Branch, Status, Date filters.
Faculty Coordinator	Department students (read-only).
Administrator	Application ID, Student, Company, Status, Date lookups.

INDUSTRIAL ASSIGNMENT- 4

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP04-US03

Update Application Status

Recruiters and the placement cell must move applications through the selection stages and keep a clear record so students always know where they stand.

Scope

Belongs to Epic EP-04 – Application Management, Task T15 – Update Application Status: change the status of an application (Permission: Company Recruiter / Placement Officer; Precondition: Application exists). Implements the requirement that the system shall allow recruiters to update application status and keep a history of changes.

User Story:

- As a **Company Recruiter**, I want to shortlist, select or reject applicants for my opportunities, so that the hiring process moves forward.
- As a **Placement Officer**, I want to update or correct application status where required, so that errors and special cases are handled.
- As a **Student**, I want to see every change in my application status, so that I know the result of each stage.
- As an **Administrator**, I want to review the status history of any application, so that disputes can be resolved.

Permission Matrix:

Role	Update Status of Own Opportunity Applicants	Update Any Application Status	Reject with Reason	View Status History
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Not Allowed	Not Allowed	Not Allowed	Allowed (own only)
Company Recruiter	Allowed	Not Allowed	Allowed	Allowed (own opportunities only)
Placement Officer	Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Not Allowed	Not Allowed	Not Allowed	Allowed (read-only)

Role	Update Status of Own Opportunity Applicants	Update Any Application Status	Reject with Reason	View Status History
Administrator	Not Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to update a status, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given the status of a Student's application changes, when the Student opens it, then the new status and time are shown.
  - Given a Student tries to change a status, when attempted, then the system denies the action.
- **Company Recruiter:**
  - Given an applicant of the recruiter's opportunity, when the recruiter sets the status to Shortlisted, Selected or Rejected, then the status is saved and the change is recorded.
  - Given a recruiter tries to select an applicant who is not shortlisted, when attempted, then the system blocks the jump and asks to follow the stages.
- **Placement Officer:**
  - Given a special case, when the Placement Officer changes an application status with a reason, then the status is updated and recorded.
  - Given the officer leaves the reason empty for a rejection, when submitted, then the system requests a reason.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens an application, when loaded, then the status history is shown read-only.
  - Given the coordinator tries to update a status, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens an application, when needed, then they can correct the status with a reason and the change is recorded.
  - Given the Administrator opens the history, when loaded, then each old and new status is shown with who changed it.

- **System:**
  - Given a status changes, when saved, then the old status, new status, changed-by user, reason and time are stored and earlier states are never overwritten.
  - Given a status is changed to Selected or Rejected, when saved, then the student is notified.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Allowed status transitions work; invalid transitions are blocked.
- Every status change is stored in the status history.
- Students are notified of changes.
- Status updates tested for every role.
- Status controls reviewed for clarity and protection against accidental clicks.

Additional Information:

- **Implements:** the system shall allow authorized users to update application status and record the history.
- **Business rules:** every status change must be saved in a history; earlier states are never overwritten; offers need a Selected status.
- **Non-functional needs:** accuracy and auditability; quick response (performance).
- **Dependency:** requires Task T13 – Apply for Opportunity; precondition for Tasks T17 and T19.
- **Assumption:** recruiters update statuses promptly.
- **Constraint:** status values are limited to Applied, Shortlisted, Interview Scheduled, Selected, Rejected and Withdrawn.
- **Future enhancement:** Bulk status updates and custom stages may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Not applicable; view only.
Company Recruiter	Application selection, New Status (Shortlisted/Selected/Rejected), Reason (mandatory for Rejected).
Placement Officer	Application selection, New Status, Reason.
Faculty Coordinator	Not applicable; read-only.

Role	Required Input / Admission Details
Administrator	Application selection, Corrected Status, Reason.

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP04-US04

Withdraw Application

Students may change their mind or receive a better option, so they need to withdraw an application while the record stays available for the company and the placement cell.

Scope

Belongs to Epic EP-04 – Application Management, Task T16 – Withdraw Application: withdraw an existing application (Permission: Student / Placement Officer; Precondition: Application exists and is not finalized). Implements the requirement that the system shall allow students to withdraw applications while preserving records.

User Story:

- As a **Student**, I want to withdraw my application, so that the company knows I am no longer interested.
- As a **Company Recruiter**, I want to see which students withdrew, so that I can adjust my selection process.
- As a **Placement Officer**, I want to withdraw an application on behalf of a student when requested, so that records stay correct.

Permission Matrix:

Role	Withdraw Own Application	Withdraw on Behalf of Student	View Withdrawn Applications	Re-apply After Withdrawal
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Not Allowed	Allowed (own only)	Allowed (before deadline)
Company Recruiter	Not Allowed	Not Allowed	Allowed (own opportunities only)	Not Allowed
Placement Officer	Not Allowed	Allowed	Allowed	Not Allowed
Faculty Coordinator	Not Allowed	Not Allowed	Allowed (read-only)	Not Allowed
Administrator	Not Allowed	Allowed	Allowed	Not Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to withdraw an application, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student has an application that is not finalized, when they withdraw it with confirmation, then the status becomes Withdrawn and the withdrawal is recorded.
  - Given the application is already Selected with an accepted offer, when the Student tries to withdraw, then the system blocks it and advises contacting the Placement Officer.
- **Company Recruiter:**
  - Given a student withdraws, when the recruiter opens the applicants, then the application is shown as Withdrawn.
  - Given the recruiter tries to withdraw for a student, when attempted, then the system denies the action.
- **Placement Officer:**
  - Given a student requests withdrawal, when the Placement Officer withdraws on their behalf with a reason, then the status is updated and recorded.
  - Given the officer opens the withdrawn list, when loaded, then reasons and times are shown.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the department applications, when loaded, then withdrawn applications are visible read-only.
  - Given the coordinator tries to withdraw, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens an application, when they withdraw it with a reason, then the change is recorded.
  - Given the Administrator reviews withdrawals, when needed, then the history is available.
- **System:**
  - Given an application is withdrawn, when saved, then the old status, new status, reason and time are stored in the status history.
  - Given a student re-applies after withdrawal before the deadline, when saved, then the system reactivates the application instead of creating a duplicate.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Withdrawal works only for non-finalized applications.
- Withdrawn applications remain in history.
- Re-application before the deadline reuses the same record.
- Withdrawal tested for every role.
- Confirmation dialog reviewed for clarity.

Additional Information:

- **Implements:** the system shall allow students to withdraw applications that are not finalized.
- **Business rules:** a withdrawn application is kept in history; re-application is allowed only before the deadline.
- **Non-functional needs:** data integrity; usability of confirmation.
- **Dependency:** requires Task T13 – Apply for Opportunity.
- **Assumption:** students withdraw as early as possible.
- **Constraint:** applications with an accepted offer cannot be withdrawn by the student.
- **Future enhancement:** Reason categories for withdrawal analytics may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Application selection, Confirmation, Reason (optional).
Company Recruiter	Not applicable; view only.
Placement Officer	Application selection, Reason, Confirmation.
Faculty Coordinator	Not applicable; read-only.
Administrator	Application selection, Reason, Confirmation.

INDUSTRIAL ASSIGNMENT- 4

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP05-US01

Schedule Interview

Once students are shortlisted, recruiters need to publish interview details clearly so that candidates attend at the right place and time.

Scope

Belongs to Epic EP-05 – Interview and Offer Management, Task T17 – Schedule Interview: schedule an interview for a shortlisted application (Permission: Company Recruiter / Placement Officer; Precondition: Application is shortlisted). Implements the requirement that the system shall allow interviews to be scheduled and communicated to students.

User Story:

- As a **Company Recruiter**, I want to schedule interviews for shortlisted students with date, time, mode and venue or link, so that candidates know exactly when and where to attend.
- As a **Placement Officer**, I want to schedule or reschedule interviews on behalf of companies, so that campus drives run smoothly without clashes.
- As a **Student**, I want to be informed about my interview, so that I can prepare and attend on time.
- As an **Administrator**, I want to review all scheduled interviews, so that clashes and problems can be resolved.

Permission Matrix:

Role	Schedule Interview	Reschedule / Cancel Interview	View Own Interviews	View All Interviews
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Not Allowed	Not Allowed	Allowed (own only)	Not Allowed
Company Recruiter	Allowed (own opportunities only)	Allowed (own opportunities only)	Not Allowed	Allowed (own opportunities only)
Placement Officer	Allowed	Allowed	Not Allowed	Allowed
Faculty Coordinator	Not Allowed	Not Allowed	Not Allowed	Allowed (read-only)

Role	Schedule Interview	Reschedule / Cancel Interview	View Own Interviews	View All Interviews
Administrator	Not Allowed	Allowed	Not Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to schedule an interview, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given an interview is scheduled, when the Student opens their applications, then the date, time, mode and venue or link are shown and the status becomes Interview Scheduled.
  - Given a Student tries to schedule or change an interview, when attempted, then the system denies the action.
- **Company Recruiter:**
  - Given an application is Shortlisted, when the recruiter enters a future date, time, mode and venue or link, then the interview is saved and the student is notified.
  - Given the application is not Shortlisted or the date is in the past, when submitted, then the system rejects the entry and explains why.
- **Placement Officer:**
  - Given a campus drive, when the Placement Officer schedules interviews for several shortlisted students, then each interview is saved without time clashes.
  - Given a student already has an interview at the same time, when another is scheduled, then the system warns about the clash.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the department view, when loaded, then interviews of department students are shown read-only.
  - Given the coordinator tries to schedule, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens the interview list, when loaded, then all interviews are visible.
  - Given a wrong interview is scheduled, when the Administrator cancels it with a reason, then the cancellation is recorded and the student is notified.
- **System:**

- Given an interview is saved, when validated, then it is linked to exactly one shortlisted application.
- Given an interview is rescheduled, when saved, then the old date and time are kept in the record history.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Interviews can be scheduled only for shortlisted applications with valid future dates.
- Clashes are detected and warned.
- Students are notified of every schedule change.
- Interview scheduling tested for every role.
- Scheduling form reviewed for simplicity.

Additional Information:

- **Implements:** the system shall allow scheduling of interviews for shortlisted applications.
- **Business rules:** an interview can be scheduled only for a shortlisted application.
- **Non-functional needs:** accuracy of schedule information; timely notification.
- **Dependency:** requires Task T15 – Update Application Status (Shortlisted).
- **Assumption:** recruiters provide accurate venue or link details.
- **Constraint:** video-call integration is not included; only the meeting link is stored.
- **Future enhancement:** Calendar integration and automatic reminders may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Not applicable; view only.
Company Recruiter	Application selection, Interview Date, Time, Mode (Online/Offline), Venue or Meeting Link, Round Number.
Placement Officer	Company, Applications, Interview Date, Time, Mode, Venue or Link.
Faculty Coordinator	Not applicable; read-only.
Administrator	Interview selection for review, cancellation and reason.

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP05-US02

View Interview Schedule

Everyone involved needs to see interview details clearly so that candidates and interviewers meet at the right time.

Scope

Belongs to Epic EP-05 – Interview and Offer Management, Task T18 – View Interview Schedule: display interview schedules and results (Permission: Authorized User; Precondition: Interview is scheduled). Implements the requirement that the system shall allow users to view interview schedules according to their role.

User Story:

- As a **Student**, I want to view my interview schedule, so that I can prepare and attend on time.
- As a **Company Recruiter**, I want to view the interviews of my opportunities, so that I can plan my panel.
- As a **Placement Officer**, I want to view all interviews, so that I can coordinate venues and avoid clashes.
- As a **Faculty Coordinator**, I want to view interview counts of my department students, so that I can support them.
- As an **Administrator**, I want to view every interview, so that I can oversee the process.

Permission Matrix:

Role	View Own Interviews	View Interviews of Own Opportunities	View All Interviews	View Interview Result
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Not Allowed	Not Allowed	Allowed (own only)
Company Recruiter	Not Allowed	Allowed	Not Allowed	Allowed (own opportunities only)
Placement Officer	Not Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Not Allowed	Not Allowed	Allowed (own department, read-only)	Allowed (read-only)

Role	View Own Interviews	View Interviews of Own Opportunities	View All Interviews	View Interview Result
Administrator	Not Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to view an interview schedule, then the system denies access.
  - Given a Guest becomes a Student, when approved, then they can view only their own interviews.
- **Student:**
  - Given a Student opens the interview page, when loaded, then only their own upcoming and past interviews are shown with date, time, mode and venue or link.
  - Given a Student tries to view another student's interview, when attempted, then the system denies the action.
- **Company Recruiter:**
  - Given a recruiter opens the interview list, when loaded, then interviews of their own opportunities are shown by date.
  - Given a recruiter tries to view another company's interviews, when attempted, then the system denies access.
- **Placement Officer:**
  - Given the Placement Officer opens the schedule, when loaded, then all interviews are shown in a day-wise calendar view.
  - Given a venue clash exists, when displayed, then the system highlights it.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the department view, when loaded, then interviews of department students are shown read-only.
  - Given the coordinator tries to edit an interview, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens any interview, when loaded, then the full details and result are shown.
  - Given the Administrator searches by date or company, when applied, then matching interviews are shown.
- **System:**

- Given an interview view is requested, when processed, then the system checks the requester's role and ownership before returning data.
- Given an interview time has passed, when displayed, then it is shown in the past interviews list.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Each role sees only the interviews permitted to it.
- Upcoming and past interviews are separated.
- Schedule views tested for every role's data scope.
- Schedule page reviewed for clear date and time display.

Additional Information:

- **Implements:** the system shall allow authorized users to view interview schedules.
- **Business rules:** users should only access information permitted by their role.
- **Non-functional needs:** quick loading; clarity of date and time display.
- **Dependency:** requires Task T17 – Schedule Interview.
- **Assumption:** students check the schedule before the interview day.
- **Constraint:** time is shown in the college's local time zone.
- **Future enhancement:** Add-to-calendar and reminder alerts may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Own interviews (automatic).
Company Recruiter	Opportunity selection; date filter.
Placement Officer	Date, Company, Venue filters.
Faculty Coordinator	Department students (read-only).
Administrator	Date, Company, Student, Status lookups.

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP05-US03

Release Offer

Selected students need a clear, recorded offer from the company so that placement outcomes are official and traceable.

Scope

Belongs to Epic EP-05 – Interview and Offer Management, Task T19 – Release Offer: release an offer to a selected student (Permission: Company Recruiter / Placement Officer; Precondition: Application is selected). Implements the requirement that the system shall allow offers to be released only to selected applicants.

User Story:

- As a **Company Recruiter**, I want to release an offer to a selected student with package or stipend details, so that the selection is confirmed formally.
- As a **Placement Officer**, I want to record or correct offers, so that placement records stay complete even for offline offers.
- As a **Student**, I want to view the offers released to me, so that I can decide.
- As an **Administrator**, I want to review all offers, so that records can be audited.

Permission Matrix:

Role	Release Offer	Edit / Revoke Offer	View Own Offers	View All Offers
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Not Allowed	Not Allowed	Allowed (own only)	Not Allowed
Company Recruiter	Allowed (own opportunities only)	Allowed (before response)	Not Allowed	Allowed (own opportunities only)
Placement Officer	Allowed	Allowed	Not Allowed	Allowed
Faculty Coordinator	Not Allowed	Not Allowed	Not Allowed	Allowed (read-only)
Administrator	Not Allowed	Allowed	Not Allowed	Allowed

Acceptance Criteria:

- **Guest:**

  - Given a Guest is not logged in, when they try to release an offer, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given an offer is released, when the Student opens the offers page, then company, role, package or stipend, offer date and status Pending are shown.
  - Given a Student tries to create or edit an offer, when attempted, then the system denies the action.
- **Company Recruiter:**
  - Given an application is Selected, when the recruiter enters valid package or stipend details, then the offer is saved as Pending and the student is notified.
  - Given the application is not Selected or an offer already exists, when submitted, then the system rejects the offer and explains why.
- **Placement Officer:**
  - Given an offer was given offline, when the Placement Officer records it, then it is saved with the officer recorded as the entry user.
  - Given a wrong amount was entered, when the officer corrects it before the student responds, then the change is recorded.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the department view, when loaded, then offers are shown read-only.
  - Given the coordinator tries to release or edit an offer, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens the offers list, when loaded, then all offers are visible with status.
  - Given a wrong offer exists, when the Administrator revokes it with a reason, then the revocation is recorded and the student is notified.
- **System:**
  - Given an offer is saved, when validated, then it is linked to exactly one Selected application.
  - Given an offer is revoked or changed, when saved, then the old values, reason, user and time are stored.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Offers can be released only for Selected applications, one per application.

- Students are notified of every offer or change.
- Offer changes are recorded.
- Offer release tested for every role.
- Offer form reviewed for clear compensation details.

Additional Information:

- **Implements:** the system shall allow releasing an offer to a selected student.
- **Business rules:** an offer can be released only for a selected application; one offer per application.
- **Non-functional needs:** accuracy of compensation details; timely notification.
- **Dependency:** requires Task T15 – Update Application Status (Selected).
- **Assumption:** recruiters enter final and approved compensation.
- **Constraint:** offer-letter document generation is not included in the first version.
- **Future enhancement:** Digital offer letters with e-signature may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Not applicable; view only.
Company Recruiter	Application selection, Job Title, Package or Stipend, Joining Date, Offer Validity Date, Remarks.
Placement Officer	Application selection and the same offer details (recorded on behalf of company).
Faculty Coordinator	Not applicable; read-only.
Administrator	Offer selection, Action (Review/Revoke), Reason.

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP05-US04

Respond to Offer

Students must be able to accept or reject an offer online so that the company and placement cell have an official decision.

Scope

Belongs to Epic EP-05 – Interview and Offer Management, Task T20 – Respond to Offer: accept or reject a released offer (Permission: Student; Precondition: Offer is released and pending). Implements the requirement that the system shall allow students to respond to offers and record the final decision.

User Story:

- As a **Student**, I want to accept or reject an offer, so that my decision is recorded officially.
- As a **Company Recruiter**, I want to see the response of the student, so that I can plan the next steps.
- As a **Placement Officer**, I want to see all offer responses, so that placement statistics stay accurate.
- As an **Administrator**, I want to review offer responses, so that disputes can be resolved.

Permission Matrix:

Role	Accept / Reject Own Offer	View Response of Own Offers	View All Responses	Change Response
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Not Allowed	Not Allowed	Not Allowed
Company Recruiter	Not Allowed	Allowed	Not Allowed	Not Allowed
Placement Officer	Not Allowed	Allowed	Allowed	Allowed (with reason, exception only)
Faculty Coordinator	Not Allowed	Not Allowed	Allowed (read-only)	Not Allowed
Administrator	Not Allowed	Allowed	Allowed	Allowed (with reason, exception only)

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to respond to an offer, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student has a Pending offer, when they accept it with confirmation, then the offer status becomes Accepted and the response time is recorded.
  - Given a Student rejects an offer with confirmation, when saved, then the status becomes Rejected and the company is informed.
- **Company Recruiter:**
  - Given the Student responds, when the recruiter opens the offer, then the new status is shown.
  - Given a recruiter tries to respond on behalf of a student, when attempted, then the system denies the action.
- **Placement Officer:**
  - Given students respond to offers, when the Placement Officer opens the list, then all responses are shown with counts.
  - Given a student accepted a placement offer, when recorded, then further placement applications are restricted as per the placement policy.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the department view, when loaded, then responses are shown read-only.
  - Given the coordinator tries to respond, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens an offer, when reviewed, then the response and time are shown.
  - Given an exceptional case, when the Administrator changes a response with a reason, then the change is recorded.
- **System:**
  - Given a response is submitted, when processed, then the offer must be Pending and not expired.
  - Given the offer validity date has passed, when the student tries to respond, then the system marks the offer Expired and blocks the response.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Only Pending, valid offers can be answered; responses are final unless changed by an exception.
- Responses are recorded with time and notified to the company.
- Placement restriction after acceptance is applied.
- Response flow tested for every role.
- Accept/Reject buttons reviewed for clarity and confirmation.

Additional Information:

- **Implements:** the system shall allow students to accept or reject offers.
- **Business rules:** a student who accepts a placement offer cannot apply for further placements without an exception.
- **Non-functional needs:** accuracy of records; security of the decision action.
- **Dependency:** requires Task T19 – Release Offer.
- **Assumption:** students respond before the offer validity date.
- **Constraint:** a response is final unless the Placement Officer or Administrator allows a change.
- **Future enhancement:** Negotiation or counter-offer requests may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Offer selection, Decision (Accept/Reject), Confirmation.
Company Recruiter	Not applicable; view only.
Placement Officer	Response filters (Company, Branch, Status).
Faculty Coordinator	Not applicable; read-only.
Administrator	Offer selection, Corrected Response, Reason (exception only).

INDUSTRIAL ASSIGNMENT- 4

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP06-US01

View Dashboard

Every user needs a clear starting page that shows the most important information for their role at a glance.

Scope

Belongs to Epic EP-06 – Dashboard and Reports, Task T21 – View Dashboard: show a role-specific dashboard (Permission: Logged-in User; Precondition: User is authenticated). Implements the requirement that the system shall show role-based dashboards with key information, enforcing the rule that users can access only information permitted by their role.

User Story:

- As a **Student**, I want to see my application counts, upcoming interviews and new opportunities on a dashboard, so that I can act quickly.
- As a **Company Recruiter**, I want to see my open opportunities, applicant counts and pending actions, so that I can manage recruitment efficiently.
- As a **Placement Officer**, I want to see overall placement figures and pending approvals, so that I can manage daily operations.
- As a **Faculty Coordinator**, I want to see department placement progress, so that I can monitor and guide students.
- As an **Administrator**, I want to see system-wide counts and pending items, so that I can oversee the whole portal.

Permission Matrix:

Role	View Own Role Dashboard	Customize Widgets	View Pending Actions	View System-Wide Data
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Allowed	Allowed (own items)	Not Allowed
Company Recruiter	Allowed	Allowed	Allowed (own items)	Not Allowed
Placement Officer	Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Allowed	Allowed	Not Allowed	Allowed (own department, read-only)

Role	View Own Role Dashboard	Customize Widgets	View Pending Actions	View System-Wide Data
Administrator	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to open a dashboard, then the system denies access and shows the login page.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student logs in, when the dashboard loads, then it shows applications by status, upcoming interviews, pending offers and recommended open opportunities.
  - Given a Student hides a widget, when saved, then the dashboard remembers the choice.
- **Company Recruiter:**
  - Given a Company Recruiter logs in, when the dashboard loads, then it shows open opportunities, new applicants and interviews due.
  - Given there are no new applicants, when the dashboard loads, then a clear empty state is shown.
- **Placement Officer:**
  - Given a Placement Officer logs in, when the dashboard loads, then it shows total students, companies, open opportunities, applications, offers and pending approvals.
  - Given pending recruiter approvals exist, when displayed, then they are highlighted with a direct link.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator logs in, when the dashboard loads, then it shows department-wise placement progress read-only.
  - Given the coordinator tries to open another department's data, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator logs in, when the dashboard loads, then it shows users, pending accounts, active sessions and system-wide counts.
  - Given the Administrator reorders widgets, when saved, then the layout is stored for future logins.
- **System:**

- Given a dashboard is requested, when processed, then the system shows only data permitted for the user's role.
- Given widget preferences exist, when the dashboard loads, then they are applied in the saved order and visibility.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Each role sees only its permitted summary data.
- Counts are accurate and current.
- Widget visibility and order are saved.
- Dashboards tested for every role.
- Dashboard layout reviewed for simplicity and quick loading.

Additional Information:

- **Implements:** the system shall show a role-specific dashboard after login.
- **Business rules:** users should only access information permitted by their role; dashboard figures must reflect current data.
- **Non-functional needs:** quick loading (performance); accuracy of figures.
- **Dependency:** requires Task T02 – Login and data from Epics EP02–EP05.
- **Assumption:** users open the dashboard as their starting page.
- **Constraint:** internet connectivity is required to load live data.
- **Future enhancement:** Charts, trend lines and drag-and-drop widget customization may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	None (automatic); optional widget visibility and order.
Company Recruiter	None (automatic); optional widget visibility and order.
Placement Officer	None (automatic); optional widget visibility and order.
Faculty Coordinator	Department selection (own department only).
Administrator	None (automatic); optional widget visibility and order.

INDUSTRIAL ASSIGNMENT- 4

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP06-US02

View Opportunity Summary

Decision-makers need a quick summary of opportunities to understand how many are open, closed and attracting applications.

Scope

Belongs to Epic EP-06 – Dashboard and Reports, Task T22 – View Opportunity Summary: display opportunity summaries (Permission: Authorized User; Precondition: Opportunity records exist). Implements the requirement that the system shall provide summaries of opportunities, enforcing the rule that reports must reflect current records.

User Story:

- As a **Company Recruiter**, I want to see the summary of my own opportunities and applications, so that I can judge response.
- As a **Placement Officer**, I want to see opportunity summaries by type, status and company, so that I can plan drives.
- As a **Faculty Coordinator**, I want to see opportunity summaries relevant to my department's branch, so that I can guide students.
- As an **Administrator**, I want to see complete opportunity summaries, so that I can monitor the whole system.

Permission Matrix:

Role	View Own Summary	View Summary by Type / Status	View Company-Wise Summary	View Date-Range Summary
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed (open opportunities count only)	Not Allowed	Not Allowed	Not Allowed
Company Recruiter	Allowed	Allowed (own only)	Allowed (own only)	Allowed
Placement Officer	Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Allowed	Allowed (read-only)	Allowed (read-only)	Allowed (read-only)
Administrator	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to view a summary, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student opens the summary area, when loaded, then only the count of open opportunities by type is shown.
  - Given a Student tries to open company-wise figures, when attempted, then the system denies the action.
- **Company Recruiter:**
  - Given a recruiter opens the summary, when loaded, then total, open and closed opportunities and applications per opportunity are shown for their own company.
  - Given a recruiter tries to view another company's summary, when attempted, then the system denies access.
- **Placement Officer:**
  - Given the Placement Officer opens the summary, when loaded, then counts by type, status and company are shown.
  - Given a date range is selected, when applied, then the summary shows only opportunities posted in that period.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the summary, when loaded, then opportunities eligible for the department branch are shown read-only.
  - Given the coordinator tries to edit data, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens the summary, when loaded, then complete system-wide figures are shown.
  - Given no opportunities exist for the selected period, when applied, then a clear "no data" message is shown.
- **System:**
  - Given a summary is requested, when processed, then the system checks the requester's role before calculating figures.
  - Given the data changes, when the page is refreshed, then the summary shows the current counts.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Summary figures are accurate and role-scoped.
- Date-range, type and status groupings work correctly.
- Empty results show clear messages.
- Summaries tested for every role.
- Summary layout reviewed for readability.

Additional Information:

- **Implements:** the system shall show summaries of opportunities by type, status and company.
- **Business rules:** summaries must reflect the current status of records; users see only data permitted for their role.
- **Non-functional needs:** quick calculation (performance); accuracy.
- **Dependency:** requires Tasks T10 – Post Opportunity and T12 – Close or Delete Opportunity.
- **Assumption:** opportunity records are kept up to date.
- **Constraint:** internet connectivity is required to calculate live figures.
- **Future enhancement:** Graphical charts and trend comparisons across years may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Not applicable beyond open-opportunity counts.
Company Recruiter	Date Range (optional); own company only.
Placement Officer	Type, Status, Company, Date Range.
Faculty Coordinator	Branch (own department), Date Range.
Administrator	Type, Status, Company, Date Range.

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP06-US03

View Placement Summary

Management needs to know how many students applied, were selected and placed so that placement performance can be judged.

Scope

Belongs to Epic EP-06 – Dashboard and Reports, Task T23 – View Placement Summary: display placement and offer summaries (Permission: Authorized User; Precondition: Application and offer records exist). Implements the requirement that the system shall provide placement summaries, enforcing the rule that reports must reflect the current status of records.

User Story:

- As a **Student**, I want to see my own application and offer summary, so that I can track my progress.
- As a **Placement Officer**, I want to see branch-wise and company-wise placement summaries, so that I can report performance.
- As a **Faculty Coordinator**, I want to see my department's placement summary, so that I can plan guidance for students.
- As an **Administrator**, I want to see the complete placement summary, so that I can monitor the system and support management.

Permission Matrix:

Role	View Own Summary	View Branch-Wise Summary	View Company-Wise Summary	View Placed Students List
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Not Allowed	Not Allowed	Not Allowed
Company Recruiter	Not Allowed	Not Allowed	Allowed (own company only)	Allowed (own company only)
Placement Officer	Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Not Allowed	Allowed (own department, read-only)	Not Allowed	Allowed (own department, read-only)
Administrator	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to view a placement summary, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student opens the summary, when loaded, then the number of applications, shortlisted, interviews, offers and the final outcome are shown for them only.
  - Given a Student tries to view other students' data, when attempted, then the system denies the action.
- **Company Recruiter:**
  - Given a recruiter opens the summary, when loaded, then applications, selections and accepted offers for their own company are shown.
  - Given a recruiter tries to view branch-wise institution data, when attempted, then the system denies access.
- **Placement Officer:**
  - Given the Placement Officer opens the summary, when loaded, then total applications, selections, offers, placed students and placement percentage are shown by branch and company.
  - Given a period is selected, when applied, then figures are limited to that period.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator opens the summary, when loaded, then department figures are shown read-only.
  - Given the coordinator tries to open another department's figures, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator opens the summary, when loaded, then complete institution-wide figures and the list of placed students are shown.
  - Given no offers exist yet, when displayed, then zero values and a clear message are shown.
- **System:**
  - Given a summary is requested, when processed, then a student is counted as placed only when an offer has the status Accepted.
  - Given records change, when refreshed, then the summary shows the current figures.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Placed students are counted only from accepted offers.
- Branch-wise, company-wise and period filters give correct results.
- Figures are role-scoped.
- Placement summaries tested for every role.
- Summary layout reviewed for clarity.

Additional Information:

- **Implements:** the system shall show placement summaries such as applications, selections, offers and placed students.
- **Business rules:** a student is counted as placed only with an accepted offer; summaries must reflect current records.
- **Non-functional needs:** accuracy of statistics; quick calculation (performance).
- **Dependency:** requires Tasks T13–T20 (applications, interviews and offers).
- **Assumption:** offer responses are recorded in the portal.
- **Constraint:** offers made outside the portal are counted only if recorded by the Placement Officer.
- **Future enhancement:** Year-wise comparison and package analysis may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Own summary (automatic).
Company Recruiter	Date Range (optional); own company only.
Placement Officer	Branch, Company, Opportunity Type, Date Range.
Faculty Coordinator	Date Range (own department only).
Administrator	Branch, Company, Opportunity Type, Date Range.

INDUSTRIAL ASSIGNMENT- 4

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP06-US04

Generate Reports

Management and the placement cell need ready-made reports for a chosen period and scope to submit to the college and accreditation bodies.

Scope

Belongs to Epic EP-06 – Dashboard and Reports, Task T24 – Generate Reports: generate and export reports (Permission: Placement Officer / Faculty Coordinator / Administrator; Precondition: Records exist for the selected period). Implements the requirement that the system shall generate reports for a selected period and scope, enforcing the rule that reports must reflect current data.

User Story:

- As a **Placement Officer**, I want to generate placement and internship reports for a selected period and scope, so that I can submit them to the Principal.
- As a **Faculty Coordinator**, I want to generate department reports, so that I can review the department's performance.
- As an **Administrator**, I want to generate any report and view the history of reports generated, so that records are complete and auditable.

Permission Matrix:

Role	Generate Report	Choose Period and Scope	Export Report (PDF / Excel)	View Report History
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Company Recruiter	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Placement Officer	Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Allowed (own department)	Allowed (own department)	Allowed	Allowed (own reports)
Administrator	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to generate a report, then the system denies access.

  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student is logged in, when they try to open the reports page, then the system denies access as it is outside their role.
  - Given a Student wants their own summary, when needed, then they are directed to their dashboard (Task T21).
- **Company Recruiter:**
  - Given a Company Recruiter is logged in, when they try to generate institution reports, then the system denies the action.
  - Given a recruiter attempts to open the page by direct link, when blocked, then the system redirects them to their dashboard.
- **Placement Officer:**
  - Given the Placement Officer selects a report type, period and scope, when generated, then the report shows accurate figures and can be exported as PDF or Excel.
  - Given no records exist for the selected period, when generated, then the system shows a "no data" message and does not create an empty file.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator selects a period, when generated, then the report contains only department data.
  - Given the coordinator tries to choose another department, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator generates a report, when completed, then an entry is added to the report history.
  - Given the Administrator opens the report history, when loaded, then report type, period, scope, format, generated-by and time are shown.
- **System:**
  - Given a report is generated, when completed, then the details are saved in the report history.
  - Given invalid dates are entered (end before start), when submitted, then the system rejects the request and explains the error.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Reports contain accurate, current and role-scoped data.
- Export to PDF and Excel works.

- Every generated report is recorded in the report history.
- Invalid periods are rejected.
- Report generation tested for every role.
- Report page reviewed for simplicity.

Additional Information:

- **Implements:** the system shall generate reports for a selected period and scope.
- **Business rules:** reports must reflect current records; access is limited by role.
- **Non-functional needs:** accuracy; reasonable generation time (performance); security of exported files.
- **Dependency:** requires data from Epics EP03–EP05 and Task T23 – View Placement Summary.
- **Assumption:** records are complete for the selected period.
- **Constraint:** large reports may take more time to generate.
- **Future enhancement:** Scheduled reports and e-mail delivery may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Not applicable; outside role permissions.
Company Recruiter	Not applicable; outside role permissions.
Placement Officer	Report Type, Start Date, End Date, Scope (Branch/Company/All), Export Format.
Faculty Coordinator	Report Type, Start Date, End Date, Export Format (own department).
Administrator	Report Type, Start Date, End Date, Scope, Export Format.

INDUSTRIAL ASSIGNMENT- 4

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP07-US01

Search Opportunities

Students and staff need to find a specific opportunity quickly among many postings by typing a few words.

Scope

Belongs to Epic EP-07 – Search and Filter, Task T25 – Search Opportunities: search opportunity records (Permission: Logged-in User; Precondition: Opportunity records exist). Implements the requirement that the system shall allow searching records using keywords.

User Story:

- As a **Student**, I want to search opportunities by title, company or keyword, so that I can find relevant openings quickly.
- As a **Company Recruiter**, I want to search my own postings, so that I can manage them quickly.
- As a **Placement Officer**, I want to search all opportunities, so that I can handle student and company queries quickly.
- As a **Faculty Coordinator**, I want to search opportunities relevant to my department, so that I can guide students.
- As an **Administrator**, I want to search every opportunity, so that I can investigate issues.

Permission Matrix:

Role	Search by Title / Keyword	Search by Company	Search Closed Opportunities	Search All Companies
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Allowed	Not Allowed	Not Allowed
Company Recruiter	Allowed (own only)	Allowed (own only)	Allowed (own only)	Not Allowed
Placement Officer	Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Allowed	Allowed	Allowed (read-only)	Allowed (read-only)
Administrator	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**

  - Given a Guest is not logged in, when they try to search opportunities, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student enters a keyword, when they search, then matching open opportunities are shown with company, type and deadline.
  - Given no opportunity matches, when searched, then a clear "no results" message is shown.
- **Company Recruiter:**
  - Given a recruiter searches by title, when applied, then only their own opportunities matching the text are shown.
  - Given a recruiter searches another company's name, when applied, then no other company's postings are shown.
- **Placement Officer:**
  - Given the Placement Officer searches by company, title or keyword, when applied, then matching opportunities are shown including closed ones.
  - Given partial text is entered, when searched, then partial matches are shown.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator searches, when applied, then matching opportunities are shown read-only.
  - Given the coordinator tries to edit from the results, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator searches by any text, when applied, then all matching opportunities including deleted ones (flagged) are shown.
  - Given the Administrator clears the search, when applied, then the full list returns.
- **System:**
  - Given a search is requested, when processed, then the system checks the requester's role before returning results.
  - Given a search term contains special characters, when submitted, then the system handles it safely without errors.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Search returns correct, role-scoped results.
- Partial and case-insensitive matches work.

- Empty results show clear guidance.
- Search tested for every role's data scope.
- Search box reviewed for simplicity and quick response.

Additional Information:

- **Implements:** the system shall allow searching opportunities by title, company and keyword.
- **Business rules:** users should only access information permitted by their role.
- **Non-functional needs:** quick response (performance); accurate results.
- **Dependency:** requires opportunity records from Task T10 – Post Opportunity.
- **Assumption:** users enter relevant search words.
- **Constraint:** internet connectivity is required to search in real time.
- **Future enhancement:** Typo-tolerant and suggestion-based search may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Search Text (title, company or keyword).
Company Recruiter	Search Text (own opportunities).
Placement Officer	Search Text, Company, Status.
Faculty Coordinator	Search Text (read-only).
Administrator	Search Text, Company, Status, Deleted flag.

INDUSTRIAL ASSIGNMENT- 4

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP07-US02

Filter Opportunities

Students need to narrow a long list of opportunities by type, location, eligibility and deadline to see only the ones that suit them.

Scope

Belongs to Epic EP-07 – Search and Filter, Task T26 – Filter Opportunities: filter opportunity records using criteria (Permission: Logged-in User; Precondition: Opportunity records exist). Implements the requirement that the system shall allow filtering records using available criteria.

User Story:

- As a **Student**, I want to filter opportunities by type, location, eligibility and deadline, so that I see only suitable openings.
- As a **Company Recruiter**, I want to filter my own postings by status and deadline, so that I can manage them easily.
- As a **Placement Officer**, I want to filter all opportunities by company, type and status, so that I can review drives.
- As a **Faculty Coordinator**, I want to filter opportunities by branch eligibility, so that I can guide students.
- As an **Administrator**, I want to filter every opportunity with combined criteria, so that I can analyse issues.

Permission Matrix:

Role	Filter by Type	Filter by Eligibility (CGPA / Branch)	Filter by Deadline / Status	Combine Multiple Filters
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed	Allowed	Allowed	Allowed
Company Recruiter	Allowed (own only)	Allowed (own only)	Allowed (own only)	Allowed (own only)
Placement Officer	Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Allowed	Allowed	Allowed	Allowed (read-only)
Administrator	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to filter opportunities, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student filters by type Internship, when applied, then only open internships are shown.
  - Given the Student selects “Show only opportunities I am eligible for”, when applied, then the system compares their profile CGPA, branch and semester with each opportunity.
- **Company Recruiter:**
  - Given a recruiter filters by status Open or Closed, when applied, then only their matching opportunities are shown.
  - Given the recruiter filters by deadline range, when applied, then matching postings are shown.
- **Placement Officer:**
  - Given the Placement Officer filters by company, type and status together, when applied, then results match every selected criterion.
  - Given no results match, when applied, then the system shows a clear “no results” message.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator filters by branch eligibility, when applied, then matching opportunities are shown read-only.
  - Given the coordinator clears all filters, when applied, then the default list is shown.
- **Administrator:**
  - Given the Administrator applies several filters together, when submitted, then the system returns opportunities matching every selected criterion.
  - Given the Administrator saves a frequently used filter combination, when saved, then it is offered as a quick option next time.
- **System:**
  - Given filter criteria are applied, when processed, then the system checks the requester’s role before returning records.
  - Given multiple filters are combined, when applied, then the system applies them together (AND logic) rather than independently.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Filtered results are scoped to what the role may see.
- Type, eligibility, deadline and status filters return accurate results.
- Combined filters apply together correctly.
- Filter flow tested for every role.
- Filter controls reviewed for simplicity and ease of use.

Additional Information:

- **Implements:** the system shall allow filtering opportunities by type, status, location, eligibility and deadline.
- **Business rules:** users should only access information permitted by their role.
- **Non-functional needs:** quick response to filter changes (performance); accurate filtered results.
- **Dependency:** requires opportunity records from Task T10 – Post Opportunity.
- **Assumption:** users select relevant and valid filter criteria.
- **Constraint:** internet connectivity is required to apply filters in real time.
- **Future enhancement:** Saved filter presets and personalised recommendations may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Filter Criteria: Type, Location, Eligible Only, Deadline.
Company Recruiter	Filter Criteria: Status, Deadline (own opportunities).
Placement Officer	Filter Criteria: Company, Type, Status, Deadline.
Faculty Coordinator	Filter Criteria: Branch eligibility, Type.
Administrator	Filter Criteria: Company, Type, Status, Deadline, Location, combined as needed.

INDUSTRIAL ASSIGNMENT- 4

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP07-US03

Search Student Records

Authorized staff and recruiters need to find a particular student quickly without seeing information they are not entitled to.

Scope

Belongs to Epic EP-07 – Search and Filter, Task T27 – Search Student Records: search student records (Permission: Company Recruiter / Placement Officer / Faculty Coordinator / Administrator; Precondition: Student records exist). Implements the requirement that the system shall allow authorized users to search student records within their permitted scope.

User Story:

- As a **Company Recruiter**, I want to search among students who applied to my opportunities, so that I can find a candidate quickly.
- As a **Placement Officer**, I want to search any student by name, enrollment number or branch, so that I can answer queries quickly.
- As a **Faculty Coordinator**, I want to search students of my department, so that I can monitor their progress.
- As an **Administrator**, I want to search every student record, so that I can manage data issues.

Permission Matrix:

Role	Search by Name	Search by Enrollment Number	Search by Branch / Semester	View Search Results Detail
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Company Recruiter	Allowed (applicants only)	Allowed (applicants only)	Allowed (applicants only)	Allowed (applicants only)
Placement Officer	Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Allowed (own department)	Allowed (own department)	Allowed (own department)	Allowed (read-only)
Administrator	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to search students, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student is logged in, when they try to search student records, then the system denies access as it is outside their role.
  - Given the Student reaches the page by a direct link, when blocked, then the system redirects them to their own dashboard.
- **Company Recruiter:**
  - Given a recruiter searches by name, when applied, then only students who applied to the recruiter's opportunities appear.
  - Given the recruiter searches for a student who has not applied, when applied, then no result is shown.
- **Placement Officer:**
  - Given the Placement Officer searches by name, enrollment number or branch, when applied, then matching student records are shown with verification status.
  - Given partial text is entered, when searched, then partial matches are listed.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator searches, when applied, then only students of the assigned department are shown read-only.
  - Given the coordinator searches for a student of another department, when applied, then no result is shown.
- **Administrator:**
  - Given the Administrator searches by any criterion, when applied, then all matching student records are shown.
  - Given the Administrator opens a result, when selected, then the full profile is displayed.
- **System:**
  - Given a student search is requested, when processed, then the system checks the requester's role and scope before returning any record.
  - Given contact details exist, when results are listed, then they are masked unless the role is permitted to see them.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Search results are always limited to the requester's permitted scope.
- Name, enrollment number, branch and semester searches work correctly.
- Contact data is masked where not needed.
- Search tested for every role's data scope.
- Search page reviewed for simplicity.

Additional Information:

- **Implements:** the system shall allow authorized users to search student records.
- **Business rules:** users should only access information permitted by their role.
- **Non-functional needs:** privacy of student data; quick response (performance).
- **Dependency:** requires student records from Task T05 – Create Student Profile.
- **Assumption:** users know the name or enrollment number of the student.
- **Constraint:** internet connectivity is required to search in real time.
- **Future enhancement:** Skill-based candidate search for recruiters may be added.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; requires login.
Student	Not applicable; outside role permissions.
Company Recruiter	Search Text (applicants only).
Placement Officer	Name, Enrollment Number, Branch, Semester.
Faculty Coordinator	Name, Enrollment Number, Semester (own department).
Administrator	Name, Enrollment Number, Branch, Semester, Status.

INDUSTRIAL ASSIGNMENT- 4

STUDENT INTERNSHIP AND PLACEMENT MANAGEMENT PORTAL

ID: EP07-US04

Filter Applications

Recruiters and the placement cell handle many applications and need to narrow them by status, branch and date to act quickly.

Scope

Belongs to Epic EP-07 – Search and Filter, Task T28 – Filter Applications: filter application records using criteria (Permission: Authorized User; Precondition: Application records exist). Implements the requirement that the system shall allow filtering records using available criteria.

User Story:

- As a **Student**, I want to filter my own applications by status and type, so that I can focus on what needs attention.
- As a **Company Recruiter**, I want to filter applicants of my opportunities by status, branch and CGPA, so that I can shortlist efficiently.
- As a **Placement Officer**, I want to filter all applications by company, branch, status and date, so that I can follow up.
- As a **Faculty Coordinator**, I want to filter my department's applications by status and company, so that I can monitor progress.
- As an **Administrator**, I want to filter every application with combined criteria, so that I can analyse and resolve issues.

Permission Matrix:

Role	Filter by Status	Filter by Company / Opportunity	Filter by Branch / CGPA	Combine Multiple Filters
Guest	Not Allowed	Not Allowed	Not Allowed	Not Allowed
Student	Allowed (own only)	Allowed (own only)	Not Allowed	Allowed (own only)
Company Recruiter	Allowed	Allowed (own only)	Allowed (applicants only)	Allowed
Placement Officer	Allowed	Allowed	Allowed	Allowed
Faculty Coordinator	Allowed (own department)	Allowed (own department)	Allowed (own department)	Allowed (read-only)
Administrator	Allowed	Allowed	Allowed	Allowed

Acceptance Criteria:

- **Guest:**
  - Given a Guest is not logged in, when they try to filter applications, then the system denies access.
  - Given a Guest uses a direct link, when blocked, then the system redirects to login.
- **Student:**
  - Given a Student filters their applications by status, when applied, then only their own matching applications are shown.
  - Given no application matches, when applied, then a clear “no results” message is shown.
- **Company Recruiter:**
  - Given a recruiter filters by status and CGPA, when applied, then only matching applicants of their own opportunities are shown.
  - Given the recruiter tries to filter another company’s applications, when attempted, then the system denies access.
- **Placement Officer:**
  - Given the Placement Officer applies company, branch, status and date filters together, when submitted, then results match every selected criterion.
  - Given the officer clears all filters, when applied, then the default application list returns.
- **Faculty Coordinator:**
  - Given a Faculty Coordinator filters by status and company, when applied, then only department applications are shown read-only.
  - Given the coordinator tries to filter another department, when attempted, then the system denies the action.
- **Administrator:**
  - Given the Administrator applies multiple filters together, when submitted, then the system returns applications matching every selected criterion.
  - Given the Administrator saves a frequently used filter combination, when saved, then the system offers it as a quick option for future use.
- **System:**
  - Given filter criteria are applied, when processed, then the system checks the requester’s role before returning any filtered application records.
  - Given multiple filters are combined, when applied, then the system applies them together (AND logic) rather than independently.

Definition of Done:

- Meets the defined permissions for all roles in the Permission Matrix.
- Filtered results are always scoped to what the requester's role is permitted to see.
- Filters by status, company, branch, CGPA and date range return accurate current results.
- Combined filters apply correctly together.
- Filter flow tested for every role's data scope.
- Filter controls reviewed for simplicity and ease of use.

Additional Information:

- **Implements:** the system shall allow filtering applications using available criteria.
- **Business rules:** application reports must reflect current application status, and users should only access information permitted by their role.
- **Non-functional needs:** quick response to filter changes (performance); accurate filtered results (accuracy).
- **Dependency:** requires application records from Tasks T13 – Apply for Opportunity through T16 – Withdraw Application; concludes Epic EP-07 – Search and Filter.
- **Assumption:** users select relevant, valid filter criteria.
- **Constraint:** internet connectivity is required to apply filters in real time.
- **Future enhancement:** Saved or favourite filter presets may be added later.

Additional Input Requirements Matrix

Role	Required Input / Admission Details
Guest	Not applicable; filtering applications requires a registered role.
Student	Filter Criteria: Status, Opportunity Type (own applications).
Company Recruiter	Filter Criteria: Status, Opportunity, Branch, CGPA (own opportunities).
Placement Officer	Filter Criteria: Company, Branch, Status, Date Range.
Faculty Coordinator	Filter Criteria: Status, Company, Date Range (own department).
Administrator	Filter Criteria: Status, Company, Branch, CGPA, Date Range, combined as needed.
